

CHECKING CASE AVAILABILITY WITH TUNGLE.ME

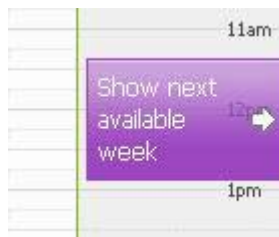

Blue Sky Bridge now has a tool that will allow our agency partners to check our availability for cases without having to call the office. Tungle.me shows in real-time what case slots are available so that agency partners can confirm availability of the family before calling our office to schedule the case. This technology is linked to our new Google calendar, so that as cases are scheduled, they block out that time slot on Tungle.me.

To use:

Go to www.tungle.me/bluesky

The screenshot shows the Tungle.me interface for Judy Cousin, Executive Director. The interface includes a navigation bar with the Tungle.me logo, the user's name, and a 'Sign In' button. Below the navigation bar is a 'Schedule a meeting' button and a date range from December 5, 2010, to March 5, 2011. The main calendar view shows the current week (December 12-18, 2010) with available slots highlighted in green. A 'Show next available week' button is visible on the right side of the calendar. On the left side, there is a 'Contact Info' section with the website, work phone, and email, and a 'Social Profiles' section with a Twitter icon.

The current week is shown automatically. To view the next week, click the button to the right that says “Show Next Available Week.”

Confirm the date and time with the family, then call our office to schedule at 303-444-1388.

Please note that in order to serve the most children, we schedule cases at 9:00 am, 12:00 pm, and 3:00 pm. If these time slots will not work, please call our office.

This new tool should reduce the back-and-forth of having to call our office to find out availability that will work for our partners and the family. If you have any questions, please call us at 303-444-1388. Thank you!
